TITLE : PORTABLE RADIO COMMUNICATION
EQUIPMENT

ABSTRACT : PROBLEM TO BE SOLVED: To provide a portable radio communication equipment with image pickup function, where an image pickup camera itself can be removed, an image pickup range is enlarged and a call can be realized while image information of an extended memory card and image information from a personal computer are transmitted and received.

SOLUTION: A camera body part 400 is removably stored in a hinge part 300 connecting a telephone set body part 100 and a cover part 200 so that they can be folded. When the camera body part 400 is separated, a video signal is transmitted to the telephone set body part 100 via the hinge part 300 by an optical communication means.
